White-Label & Reseller

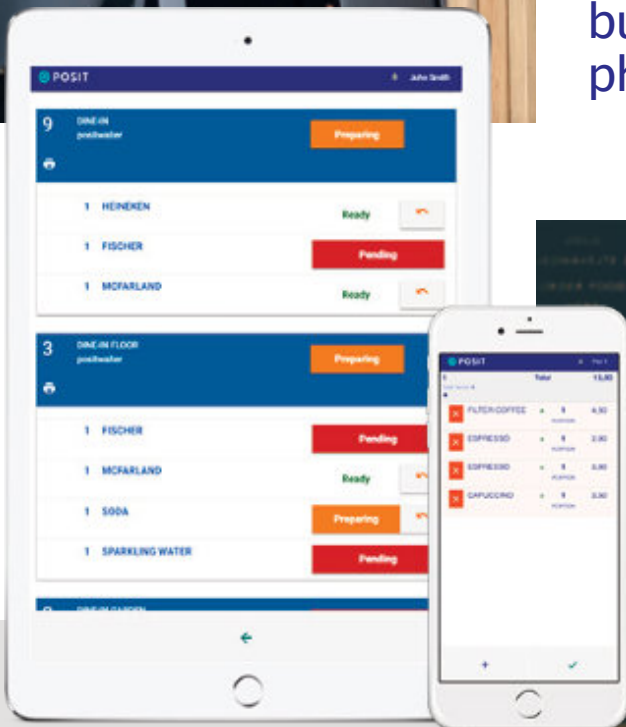

# TECHNOLOGY AND INNOVATION

POSIT is a full featured Cloud Ordering system with minimum set-up requirements.

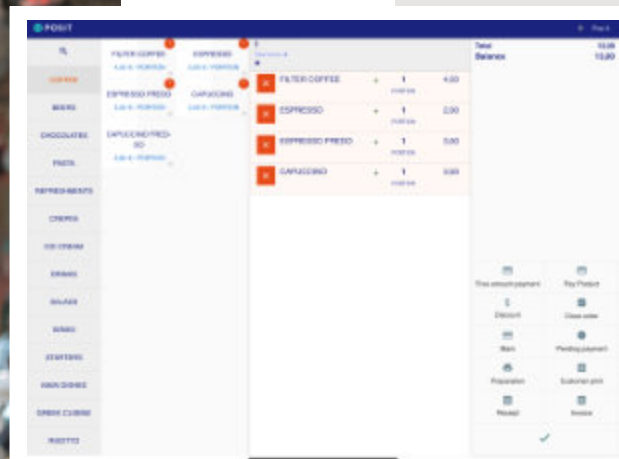

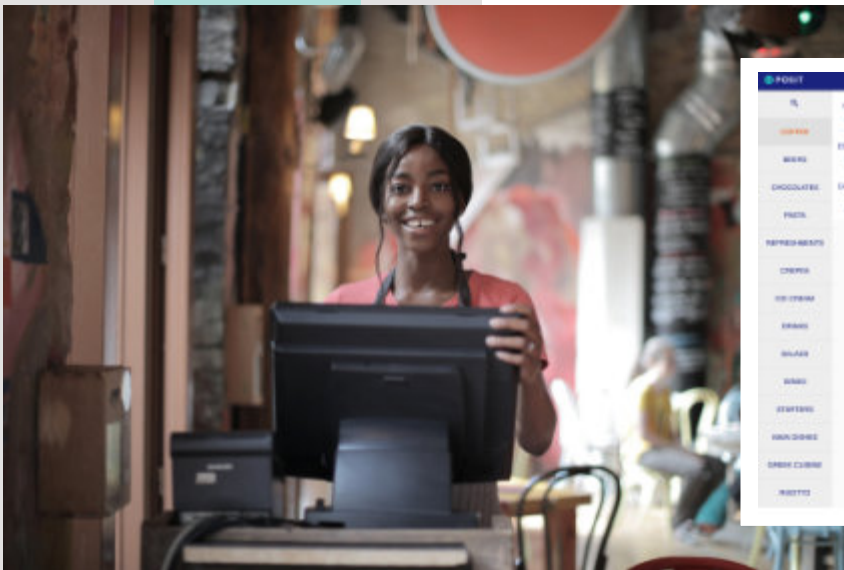

Within seconds you download the app to your device, connect to your POSIT account and put your first order.

With POSIT you are always connected with your business. Via your mobile phone, tablet, pc or mac

Compatible with all platforms Android, Windows 10, IOS, Mac

- Order Allocation: orders are printed or shown on monitors at the designated preparation stations (drinks at the bar, food at the kitchen, etc)
- Transfer orders among users/merge orders
- Manage payments (cash or card payments, partial payments, product payments)
- Delivery features, supports caller ID
- Multiple price-lists
- User access control, depending on their position in the business
- Transaction Log (delete or amend order, delete or amend product, discounts, etc)
- Reporting (sales, revenue, products, etc)
- Manage inventory
- Online stock alerts
- Reports of guests and rooms / integration with PMS systems

EPSON/ESC POS Compatible

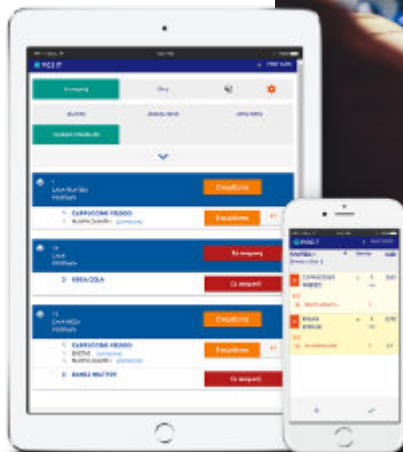

# PREPARATION MONITOR

Ideal for cafes and bars

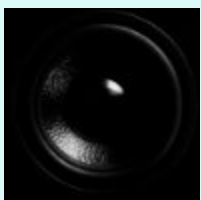

Orders are displayed on screen, printed or both

Enables communication among preparation stations located far from one another

Waiters monitor the status of their orders (preparing, ready), in real time.

Orders can be announced in the kitchen speaker using Posit Text to Speech Technology

Displays all orders based on priority on one or multiple screens, thus helps you organize your workflow and guarantees speed and performance optimization

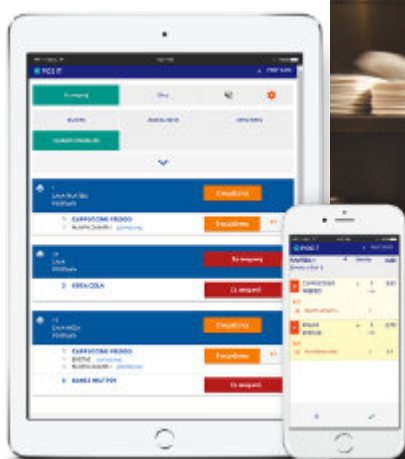

EPSON/ESC POS Compatible

# VIRTUAL FOOD RUNNER

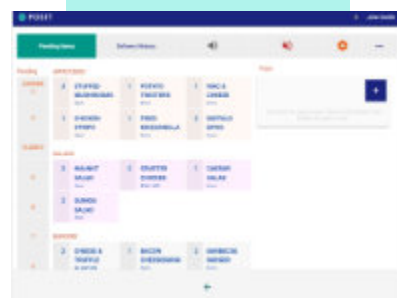

Ideal for restaurants, bistros, tavernas and big venues

When you hit peak time, Posit Virtual Food Runner is the necessary tool that makes serving easy. One click away, all dishes are served to the right virtual disk, always in the right order!

Deliver all orders without mistakes

Orders can be announced in the kitchen speaker using Posit Text to Speech Technology

Minimizes unnecessary communication of kitchen staff with the waiters.

Orders are prepared faster

EPSON/ESC POS Compatible

# QRCode Menus

Posit QR Code Menu is html responsive and mobile friendly so that all customers get access to your digital menu! Crisp clear!

## Self Ordering

With Self Ordering, customers get to place their orders via their mobile phone, directly, just by scanning the QR Code Menu!

Menus are displayed on your customers screen

Waitstaff focus on delivering not order taking

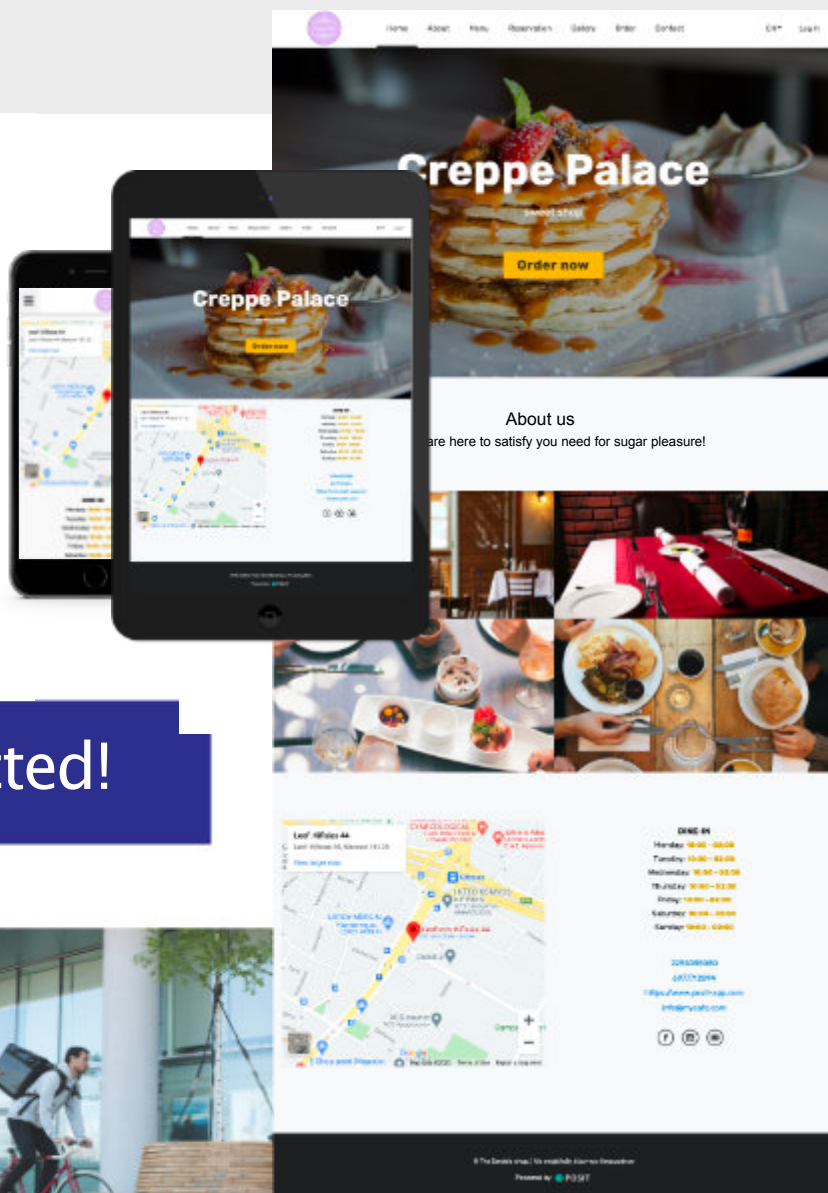

# Web/Online Ordering

Includes a website builder for your business

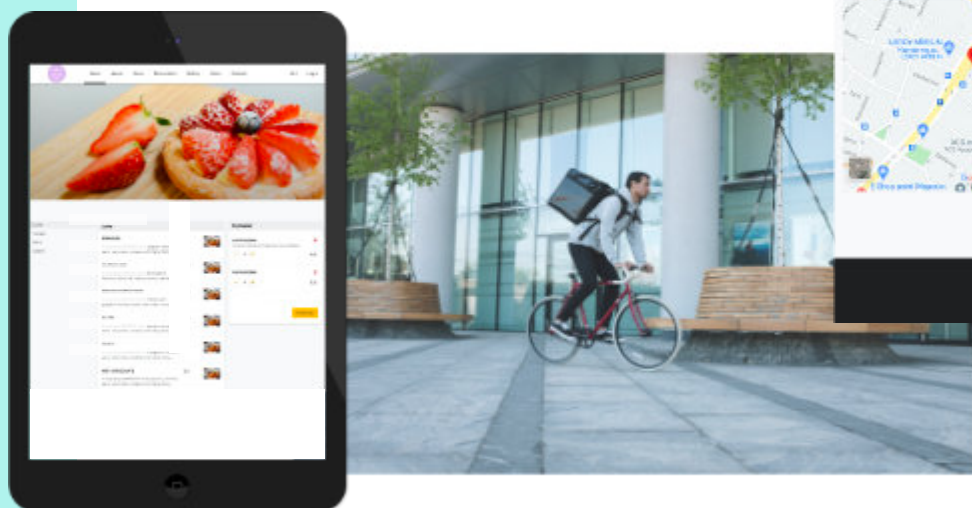

Enable online ordering on your website

Customers get to see your menu, place delivery or/and takeaway orders and make table reservations. Directly from your website!

It's all connected!

Orders are shown on Preparation monitors and/or directly printed on thermal printers

EPSON/ESC POS Compatible

POSIT runs on Microsoft Azure,  
a proven fast, stable and solid infrastructure  
with iron-clad security, while enjoying fluid  
computing capability and scalability.

We provide the best in every aspect!

We are set on delivering  
software for all future tools  
(smart-watches, smart-glasses,  
AR, big data). Machine learning,  
predictive analytics and BI can  
now apply to your business!

THE BEST **TECHNOLOGY PARTNERS**  
POSIT INTEGRATIONS

# Powerful System – Committed Team

We are a passionate team who always strives to deliver cutting-edge technology in order to help our customers stand out while making their lives easier.

We have successfully implemented our solutions across Greece over the last ten years and we are now looking to partner with like – minded tech resellers over a win-win agreement.

If you are looking to broaden your customer base and increase revenue without expanding the size of your premises, then there is huge potential in becoming our partner/reseller.

## Why POSIT

Easy to sell, no local infrastructure required

Fast scalable with minimum support

Competitive pricing

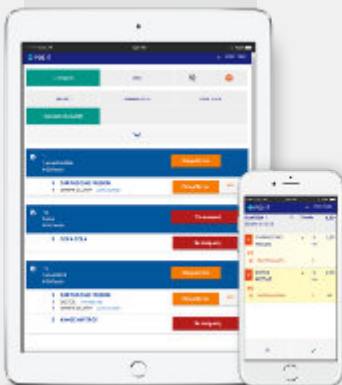

Low cost of operation

Low TCO

Flexible, remote set-up

Adaptable to all F&B businesses

Retail Option

# Benefits

What's in for you

## By becoming a POSIT reseller you get

- Access to Sales Enablement Content
- Remote Training and Strong pre-and post-sale Support
- Generous Resale and Referral Commissions
- Multiple Partner Packages
- Chose the one that best suits your needs
- Revenue share for recruiting additional partners
- Option for OEM/White label deployment
- Option for Private cloud deployment

Groups and franchise companies could benefit from customized services and solutions and acquire their own POSIT infrastructure.
